1. FUND PROFILE

- 1.1 Fund Name Nomura i-Cash Fund ("Fund")
- **1.2 Type and Category of Fund** Income – Money Market (Islamic)

1.3 Duration of the Fund The Fund is an open-ended fund.

1.4 Investment Objectives

The Fund seeks to provide investors with regular income distributions through investments in Islamic deposits, Islamic placement of money at call, general investment accounts and Islamic negotiable instruments.

1.5 Distribution Policy

Subject to the availability of realised income received from the investment, the Fund will distribute income at least once a month.

1.6 Performance Benchmark

BNM Islamic Interbank Overnight Rate ("Benchmark").

2. FUND PERFORMANCE

2.1 Key Fund Performance Data*

Category	1 May 2024	1 May 2023	1 May 2022	1 May 2021

Notes:

* Prior to 1 May 2019, the Fund was managed as a wholesale fund. Hence, the aforementioned Fund data prior to 1 May 2019 reflects the data of the Fund as a wholesale fund which are subject to guidelines, restrictions and risks applicable to wholesale fund.

^This is temporarily due to interest accrued not immediately reflected in the cash position.

- (1) Figures shown as ex-distribution.
- (2) Total Return of the Fund and its Benchmark for a period are calculated based on the absolute return of the Fund for that period. The calculation of the Total Return of the Fund is based on NAV-to-NAV basis, and is sourced from Refinitiv Lipper. Fund performances include reinvestment of income distributions into the Fund. The performance figures are a comparison of the growth/decline in NAV for the stipulated period taking into account all the distributions payable (if any) during the stipulated period:
 - Capital Return= {NAV per Unit End / NAV per Unit Beginning 1} x 100
 - Income Return= {Income Distribution per Unit / NAV per Unit Ex-Distribution} x 100
- (3) Total Expense Ratio ("TER") is calculated based on the total fees and expenses incurred by the Fund divided by the average net asset value of the Fund for the financial period calculated on daily basis.
- (4) Portfolio Turnover Ratio ("PTR") is calculated based on the total acquisitions and total disposals of investment securities of the Fund for the financial period divided by the average net asset value of the Fund for the financial period calculated on daily basis.

2.2 Average Total Return of the Fund ¹

	1 Year	3 Years	5 Years
	to 31 Oct 2024	to 31 Oct 2024	to 31 Oct 2024
Average Total Return (%)	3.46	2.88	2.60

Source: Refinitiv Lipper

2.3 Annual Total Return of the Fund ¹

	FY 2024	FY 2023	FY 2022	FY 2021	FY 2020
Total Return (%) ²	3.48	2.64	1.67	1.91	3.40
Benchmark (%)	3.05	2.49	1.73	1.80	2.90

Source: Refinitiv Lipper

Notes:

- (1) Prior to 1 May 2019, the Fund was managed as a wholesale fund. Hence, the aforementioned Fund data prior to 1 May 2019 reflects the data of the Fund as a wholesale fund which are subject to guidelines, restrictions and risks applicable to wholesale fund.
- (2) Annual Total Return of the Fund and its Benchmark for a period are calculated based on the absolute return of the Fund for that period. The calculation of the Annual Total Return of the Fund is based on NAV-to-NAV basis, and is sourced from Refinitiv Lipper. Fund performances include reinvestment of income distributions into the Fund. Further details on basis of calculation and assumption made in calculating returns is as follows:

The performance figures are a comparison of the growth/decline in NAV for the stipulated period taking into account all the distributions payable (if any) during the stipulated period:

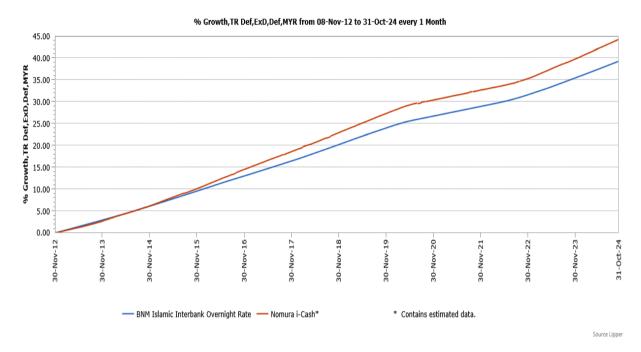

- Capital Return= {NAV per Unit End / NAV per Unit Beginning 1} x 100
- Income Return= {Income Distribution per Unit / NAV per Unit Ex-Distribution} x 100
- Total Return = $(1 + Percentage Growth)^{1/n} 1$

Past performance is not necessarily indicative of future performance and that unit prices and investment returns may go down, as well as up.

NOMURA

3. MANAGER'S REPORT

Performance of Nomura i-Cash Fund from 8 November 2012 to 31 October 2024

Benchmark: Bank Negara Malaysia Islamic Interbank Overnight Rate **Source:** The calculation of the Annual Total Return of the Fund is based on NAV-to-NAV basis, and is sourced from Refinitiv Lipper. Fund performances include reinvestment of income distributions into the Fund.

3.1 Performance for the period from 1 May 2024 to 31 October 2024

For the period under review from 1 May 2024 to 31 October 2024, the Fund has registered 1.71% return. Compared to the Benchmark return of 1.54%, the Fund has outperformed the Benchmark by 0.17%. The Net Asset Value ("**NAV**") per unit of the Fund as at 31 October 2024 was RM1.1025 compared to the NAV per unit as at 30 April 2024 of RM1.0860. On the total NAV basis, the Fund's NAV stood at RM212.87 million as at 31 October 2024. During the period under review, the Fund has declared a total income distribution of RM 0.0020 per unit.

3.2 Review of Market for the period from 1 May 2024 to 31 October 2024

Bank Negara Malaysia ("BNM") kept its Overnight Policy Rate ("OPR") unchanged at 3.00% in its Monetary Policy Committee meetings throughout the review period. BNM maintained its neutral tone with risks assessed to be balanced for both global and domestic economies. Global growth is expected to be sustained, supported by positive labour market conditions, continued recovery in global trade, moderating inflation, and less restrictive monetary policy, amid lingering downside risks. On the domestic front, economic activity continued to be driven by resilient domestic demand and higher export activity. Domestic inflation for the full year is expected to remain within the earlier projected ranges as the spillovers from the diesel price adjustment to broader prices have been contained. Separately, BNM indicated that the recovery in the ringgit is attributed by the expectations of lower interest rates in major economies as well as Malaysia's domestic economic strength. All in all, BNM reiterated that the current monetary policy stance remains supportive of the economy and is consistent with the current assessment of the inflation and growth prospects. Having that said, deposit rates remained steady during the review period.

3.3 Investment Outlook

We expect deposit rates to remain stable at current levels. As such, we will remain opportunistic and lengthen duration in periods of higher deposit rates. We will continue to maintain short-term liquidity for redemption purposes.

3.4 Strategies Employed for the period from 1 May 2024 to 31 October 2024

The Fund was solely invested in Islamic deposits during the period under review. We have remained opportunistic and lengthened the Fund's duration to take advantage of the higher deposit rates. We reduced our maintenance of short-term liquidity for redemption purposes.

3.5 Asset Allocation

Asset Allocation	31 Oct 2024	30 Apr 2024	30 Apr 2023	30 Apr 2022
Islamic deposits (%)	99.90	100.11^	99.84	99.69
Cash and other net assets (%)	0.10	(0.11)	0.16	0.31
Total (%)	100.00	100.00	100.00	100.00

There were no significant changes on the Fund's asset allocation during the financial period under review.

^This is temporarily due to interest accrued not immediately reflected in the cash position.

3.6 Securities Lending or Repurchase Transactions

The Fund has not undertaken any securities lending or repurchase transactions during the financial period under review.

3.7 Income Distribution

The Manager has distributed a total of gross/net distribution of RM0.0020 per unit for unit holders of the Fund over the financial period ended 31 October 2024.

The Net Asset Value per Unit prior and subsequent to the distributions were as follows:

Cum- Distribution Date	Cum- Distribution (RM)	Ex- Distribution Date	Ex- Distribution (RM)	Distribution per Unit (RM)
18-Jun-2024	1.0909	19-Jun-2024	1.0900	0.0010
17-Sep-2024	1.0990	18-Sep-2024	1.0981	0.0010

3.8 Details of Any Unit Split Exercise

There was no unit split exercise during the financial period under review.

3.9 Significant Changes in the State of Affairs of the Fund

There were no significant changes in the state of affairs of the Fund during the financial period under review.

However, a first supplementary prospectus of the Fund dated 25 March 2024 has been issued to reflect the changes made to the Fund.

In addition, please find the latest changes to the Manager's board of directors as follows:

Mr. Leslie Yap Kim Loong Mr. Atsushi Ichii Ms. Chooi Su May Mr. Tomoya Kawagishi (Resigned on 23 May 2024) Mr. Kenichi Suzuki (Appointed on 1 October 2024) Dato' Mona Suraya Binti Kamaruddin* Ms. Julia Binti Hashim*

* Independent director

Tabulated in **Appendix 1** for full list of changes made to the Fund.

3.10 Circumstances that Materially Affect Any Interest of Unit Holders

There were no circumstances that had materially affected the interest of the unit holders during the financial period under review.

3.11 Cross Trades Transactions

There were no cross trades conducted during the financial period under review.

3.12 Soft Commissions Received From Brokers

The Manager did not receive any soft commission during the financial period under review.

This Semi-Annual Report is prepared by the Manager of the Fund, Nomura Asset Management Malaysia Sdn. Bhd., for information purposes only. Past earnings of the Fund's distribution record is not a guarantee or reflection of the Fund's future earnings or future distributions. Investors are advised that unit prices, distributions payable and investment returns may go down, as well as up.

MATERIAL ACCOUNTING POLICY INFORMATION FOR THE FINANCIAL PERIOD ENDED 31 OCTOBER 2024 (UNAUDITED)

The following accounting policies have been used in dealing with items which are considered material in relation to the financial statements.

A BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

The financial statements have been prepared in accordance with the Malaysian Financial Reporting Standards ("MFRS") and International Financial Reporting Standards ("IFRS"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) at fair value through profit or loss.

The preparation of financial statements in conformity with the MFRS and IFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported financial period. It also requires the Manager to exercise their judgement in the process of applying the Fund's accounting policies. Although these estimates and judgement are based on the Manager's best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note I.

(a) Standards and amendments to existing standards effective 1 May 2023

There are no standards, amendments to standards or interpretations that are effective for annual periods beginning on 01 January 2023 that have a material effect on the financial statements of the Fund.

(b) New standards, amendments and interpretations effective after 1 May 2023 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 01 January 2023, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Fund.

B PRESENTATION AND FUNCTIONAL CURRENCY

Items included in the financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates (the "functional currency"). The financial statements are presented in Ringgit Malaysia ("RM"), which is the Fund's presentation and functional currency.

C INCOME RECOGNITION

Profit income from Islamic deposits with licensed financial institutions is recognised on accrual basis using the effective profit method.

Profit income is calculated by applying the effective profit rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets, the effective profit rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

MATERIAL ACCOUNTING POLICY INFORMATION FOR THE FINANCIAL PERIOD ENDED 31 OCTOBER 2024 (UNAUDITED) (CONTINUED)

D TAXATION

Current tax expense is determined according to the Malaysian tax laws at the current rate based upon the taxable income earned during the financial period.

E FINANCIAL ASSETS AND FINANCIAL LIABILITIES

(i) Classification

The Fund classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value through profit or loss ("FVTPL"), and
- those to be measured at amortised cost.

The Fund classifies its Shariah-compliant investments based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. The contractual cash flows of the Fund's debt securities are solely principal and profit. However, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Fund's business model's objective. Consequently, all investments are measured at fair value through profit or loss.

The Fund classifies cash and cash equivalent and amount due from Manager as financial assets at amortised cost as these financial assets are held to collect contractual cash flows consisting of the amount outstanding.

The Fund classifies accrued management fee, amount due to Trustee, amount due to Shariah Adviser, amount due to Manager and other payables and accruals as financial liabilities measured at amortised cost.

(ii) Recognition and measurement

Regular purchases and sales of financial assets are recognised on the trade-date, the date on which the Fund commits to purchase or sell the asset. Shariah-compliant investments are initially recognised at fair value. Subsequent to initial recognition, financial assets at fair value through profit or loss are measured at fair value.

Financial liabilities are recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the financial instrument.

Financial assets are de-recognised when the rights to receive cash flows from the Shariahcompliant investments have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership.

Financial liabilities are de-recognised when it is extinguished, i.e. when the obligation specified in the contract is discharged or cancelled or expired.

Islamic deposits with licensed financial institutions are stated at fair value. Due to short-term nature of the Islamic deposits, the cost plus accrued profit calculated based on the effective profit rate method over the period from the date of placement to the date of maturity of the respective Islamic deposits is the reasonable estimate of fair value.

MATERIAL ACCOUNTING POLICY INFORMATION FOR THE FINANCIAL PERIOD ENDED 31 OCTOBER 2024 (UNAUDITED) (CONTINUED)

E FINANCIAL ASSETS AND FINANCIAL LIABILITIES (CONTINUED)

(ii) Recognition and measurement (continued)

Financial assets at amortised cost and other financial liabilities are subsequently carried at amortised cost using the effective profit method.

(iii) Impairment

The Fund measures credit risk and expected credit losses using probability of default, exposure at default and loss given default. Management considers both historical analysis and forward-looking information in determining any expected credit loss. Management considers the probability of default to be closed to zero as these Shariah-compliant instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month expected credit losses as any such impairment would be wholly insignificant to the Fund.

Significant increase in credit risk

A significant increase in credit risk is defined by the Manager as any contractual payment which is more than 30 days past due.

Definition of default and credit-impaired financial assets

Any contractual payment which is more than 90 days past due is considered credit impaired.

Write-off

The Fund writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of debtor's sources of income or assets to generate sufficient future cash flows to repay the amount. The Fund may write-off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in impairment gains. There are no write-offs/recoveries during the financial period.

F CASH AND CASH EQUIVALENTS

For the purpose of statement of cash flows, cash and cash equivalent comprises cash and bank balance that is readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

G UNITHOLDERS' CAPITAL

The unitholders' contributions to the Fund meet the criteria of the definition of puttable instrument to be classified as equity instruments under MFRS 132 'Financial Instruments: Presentation'. These criteria include:

- The units entitle the holders to a pro-rata share of the Fund's net asset value ("NAV");
- The units are the most subordinated class and class features are identical;
- There is no contractual obligation to deliver cash or another financial asset other than the obligation on the Fund to repurchase the units; and

MATERIAL ACCOUNTING POLICY INFORMATION FOR THE FINANCIAL PERIOD ENDED 31 OCTOBER 2024 (UNAUDITED) (CONTINUED)

G UNITHOLDERS' CAPITAL (CONTINUED)

The unitholders' contributions to the Fund meet the criteria of the definition of puttable instrument to be classified as equity instruments under MFRS 132 'Financial Instruments: Presentation'. These criteria include: (continued)

• The total expected cash flows from the units over its life are based substantially on the change in the net asset of the Fund.

The outstanding units are carried at the redemption amount that is payable at each financial period if the unitholder exercises the right to put the unit back to the Fund.

Units are created and cancelled at prices based on the Fund's NAV per unit at the time of creation or cancellation. The Fund's NAV per unit is calculated by dividing the net asset attributable to unitholders with the total number of outstanding units.

H DISTRIBUTIONS

Distributions are at the discretion of the Fund. A distribution to the Fund's unitholders is accounted for as a deduction from realised reserves. A proposed distribution is recognised as a liability in the period in which it is approved by the Trustee.

I CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS IN APPLYING ACCOUNTING POLICIES

The Fund makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information content of the estimates, certain key variables that are anticipated to have material impact to the Funds' results and financial position are tested for sensitivity to changes in the underlying parameters.

Estimates and judgements are continually evaluated by the Manager and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Estimate of fair value of Islamic deposits with licensed financial institutions

In undertaking any of the Fund's Shariah-compliant investment, the Manager will ensure that all assets of the Fund under management will be valued appropriately, that is at fair value and in compliance with the Securities Commission's ("SC") Guidelines on Unit Trust Funds.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD ENDED 31 OCTOBER 2024 (UNAUDITED)

1 INFORMATION ON THE FUND

Nomura i-Cash Fund (the "Fund") was constituted as a wholesale fund pursuant to the execution of a Master Deed dated 11 June 2012, First Supplemental Master Deed dated 23 August 2013, a Second Supplemental Master Deed dated 23 October 2015, a Third Supplemental Master Deed dated 17 January 2017 (collectively referred to as the "Initial Deeds") entered into between Nomura Islamic Asset Management Sdn Bhd (the "Manager") and Deutsche Trustees Malaysia Berhad (the "Trustee").

Pursuant to a Unit Holders' meeting held on 6 December 2018, it was resolved, inter alia, that the Manager and/or the Trustee be authorised to (i) change the structure of the Fund from a wholesale fund into a retail fund; and (ii) to execute a deed and/or supplemental deed and do all things necessary to incorporate the resolution on a date to be decided at the absolute discretion of the Manager in consultation with the Trustee.

A replacement deed dated 22 April 2019 in respect of the Fund (the "Principal Deed") was entered into between the Manager and the Trustee to govern the Fund and replace in its entirety the Initial Deeds and the provision of the Initial Deeds. The Fund was converted into a Unit Trust Fund on 1 May 2019.

The First Supplemental Deed dated 22 June 2022 was entered into between Nomura Islamic Asset Management Sdn Bhd (the "Existing Manager"), Nomura Asset Management Malaysia Sdn Bhd (the "Manager") and Deutsche Trustees Malaysia Berhad (the "Trustee") to appoint Nomura Asset Management Malaysia Sdn Bhd as the Manager of the Fund effective 1 October 2022.

The Fund continue its operations until terminated by the Manager or the Trustee as provided under the Principal Deed and the First Supplemental Deed.

The Fund seeks to provide investors with regular income distributions through investments in Islamic deposits, Islamic placement of money at call, general investment accounts and Islamic negotiable instruments.

The Manager is a company incorporated in Malaysia. The principal activities of the Manager are establishment and management of unit trust funds and asset management including providing fund management services to private clients.

2 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

Total		-	50,756	50,756

The Fund is exposed to a variety of risks which include market risk (inclusive of interest rate risk), liquidity risk, credit/default risk, capital risk and fund management risk.

Financial risk management is carried out through internal control processes adopted by the Manager and adherence to the investment restrictions as stipulated in the Deed and SC Guidelines on the Unit Trust Funds.

Interest rate risk

Interest rate risk is the risk that the value of the Fund's Shariah-compliant investments and its return will fluctuate because of changes in interest rates.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD ENDED 31 OCTOBER 2024 (UNAUDITED) (CONTINUED)

2 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Interest rate risk (continued)

Interest rate is a general economic indicator that will have an impact on the management of the Fund. The Fund's exposure to the interest rate risk is mainly confined to short term placements with Islamic financial institutions. The Manager overcomes the exposure by way of maintaining Islamic deposits on short term basis.

The Fund's Islamic deposits with licensed financial institutions are short-term in nature. Therefore, exposure to interest rate fluctuations is minimal.

As at the date of the statement of financial position, all the financial asset and financial liabilities have no exposure to interest rate movement except for Islamic deposits with licensed financial institutions of RM212,652,089 (2023: RM170,362,369) which have maturities of less than one year.

Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting its financial obligations.

The Fund maintains sufficient level of Islamic liquid assets, after consultation with the Trustee, to meet anticipated payments and cancellation of units by unitholders. Islamic liquid assets comprise cash, Islamic deposits with licensed financial institutions and other Shariah-compliant instruments which are capable of being converted into cash within 7 days. The Fund aims to reduce its liquidity risk by maintaining a prudent level of Islamic liquid assets.

The table below summarises the Fund's financial liabilities into relevant maturity groupings based on the remaining period as at the statement of financial position date to the contractual maturity date.

The amounts in the table below are the contractual undiscounted cash flows.

<u>2024</u>	Less than <u>1 month</u> RM	Between 1 month <u>to 1 year</u> RM	<u>Total</u> RM
Accrued management fee Amount due to Trustee Amount due to Shariah Adviser Other payables and accruals	35,919 4,490 - -	- 1,063 13,011	35,919 4,490 1,063 13,011

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD ENDED 31 OCTOBER 2024 (UNAUDITED) (CONTINUED)

2 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Credit/default risk

Credit risk refers to the ability of an issuer or a counter party to make timely payments of profit or principal payment on the maturity date. This may lead to a default in the payment of principal and profit and ultimately a reduction in the value of the Fund. In the case of the Fund, the Manager will endeavor to minimise the risk by selecting only issues with prescribed and acceptable credit ratings.

Credit risk arising from placements of Islamic deposits with licensed financial institutions is managed by ensuring that the Fund will only place Islamic deposits in reputable licensed financial institutions.

For amount due from Manager, the settlement terms of the proceeds from the creation of units receivable from the Manager are governed by the SC's Guidelines on Unit Trust Funds.

The following table sets out the credit risk concentration of the Fund:

	Financial assets at fair value through profit or loss RM	Cash and <u>cash equivalents</u> RM	Amount due from <u>Manager</u> RM	<u>Total</u> RM

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD ENDED 31 OCTOBER 2024 (UNAUDITED) (CONTINUED)

2 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Capital risk

The capital of the Fund is represented by equity consisting of unitholders' capital of RM198,595,903 (2023: RM162,991,641) and retained earnings of RM14,272,412 (2023: RM8,092,893). The amount of equity can change significantly on a daily basis as the Fund is subject to daily subscriptions and redemptions at the discretion of unitholders. The Fund's objective when managing capital is to safeguard the Fund's ability to continue as a going concern in order to provide returns for unitholders and benefits for other stakeholders and to maintain a strong capital base to support the development of the Shariah-compliant investment activities of the Fund.

Fund management risk

There is the risk that the management company may not adhere to the investment mandate of the respective Fund. With close monitoring by the investment committee, back office system being incorporated with limits and controls, and regular reporting to the senior management team, the management company is able to manage such risk. The Trustee has an oversight function over management of the Fund by the management company to safeguard the profits of unitholders.

Fair value estimation

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price).

The fair value of financial assets and liabilities traded in active market (such as publicly traded Islamic derivatives and trading Shariah-compliant securities) are based on quoted market prices at the close of trading on the period end date.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

The fair value of financial assets and liabilities that are not traded in an active market is determined by using valuation techniques. The Fund uses a variety of methods and makes assumptions that are based on market conditions existing at each period end date. Valuation techniques used for non-standardised financial instruments such as Islamic options, Islamic currency swaps and other over-the-counter Islamic derivatives, include the use of comparable recent arm's length transactions, reference to other Shariah-compliant instruments that are substantially the same, discounted cash flow analysis, option pricing models and other valuation techniques commonly used by market participants making the maximum use of market inputs and relying as little as possible on entity-specific inputs.

For instruments for which there is no active market, the Fund may use internally developed models, which are usually based on valuation methods and techniques generally recognised as standard within the industry. Valuation models are used primarily to value unlisted debt securities, for which market were or have been inactive during the financial period. Some of the inputs to these models may not be market observable and are therefore estimated based on assumptions.

The output of a model is always an estimate or approximation of a value that cannot be determined with certainty, and valuation techniques employed may not fully reflect all factors relevant to the positions the Fund holds.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD ENDED 31 OCTOBER 2024 (UNAUDITED) (CONTINUED)

2 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

The fair values are based on the following methodology and assumptions:

- (i) Bank balance and Islamic deposits with licensed financial institutions with maturities less than 1 year, the carrying value is a reasonable estimate of fair value.
- (ii) The carrying value less impairment provision of receivables and payables are assumed to approximate their fair values. The carrying value of the financial assets and financial liabilities approximate their fair value due to their short term nature.

Valuations are therefore adjusted, where appropriate, to allow for additional factors including model risk, liquidity risk and counterparty risk.

Fair value hierarchy

The Fund adopted MFRS 13 "Fair Value Measurement" in respect of disclosures about the degree of reliability of fair value measurement. This requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1: Quoted prices (unadjusted) in active market for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3: Inputs for the asset and liability that are not based on observable market data (that is, unobservable inputs).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement.

Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The following table analyses within the fair value hierarchy the Fund's financial assets (by class) measured at fair value:

	<u>Level 1</u> RM	<u>Level 2</u> RM	<u>Level 3</u> RM	<u>Total</u> RM
<u>2024</u>				
Financial assets at fair value through profit or loss: - Islamic deposits with licensed financial institutions	-	212,652,089	-	212,652,089

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD ENDED 31 OCTOBER 2024 (UNAUDITED) (CONTINUED)

2 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Fair value hierarchy (continued)

The following table analyses within the fair value hierarchy the Fund's financial assets (by class) measured at fair value: (continued)

	<u>Level 1</u> RM	<u>Level 2</u> RM	<u>Level 3</u> RM	<u>Total</u> RM
<u>2023</u>				
Financial assets at fair value through profit or loss: - Islamic deposits with licensed				
financial institutions	- 1	170,362,369	-	170,362,369

Financial instruments that trade in markets that are considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing solutions supported by observable inputs are classified within Level 2. Level 2 instruments includes Islamic deposits with licensed financial institutions.

As Level 2 instruments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information. The Fund's policies of valuation of these financial assets are stated in Note E.

The carrying value of cash and cash equivalent, amount due from Manager and all current liabilities are reasonable approximation of the fair value due to their short-term nature.

3 MANAGEMENT FEE

In accordance with the Deed, the Manager is entitled to a management fee at a rate not exceeding 3.00% per annum of the NAV of the Fund calculated and accrued on a daily basis.

For the financial period ended 31 October 2024, the management fee is recognised as at rate of 0.20% (1 May 2023 to 31 October 2023 : 0.20%) per annum on the NAV of the Fund, calculated on a daily basis for the financial period.

There will be no further liability to the Manager in respect of the management fee other than the amounts recognised above.

4 TRUSTEE FEE

In accordance with the Deed, the Trustee is entitled to an annual fee at a rate not exceeding 0.10% per annum of the NAV of the Fund, subject to a minimum fee of RM12,000 per annum, calculated daily on the NAV of the Fund.

For the financial period ended 31 October 2024, the trustee fee is recognised as at rate of 0.025% (1 May 2023 to 31 October 2023: 0.025%) per annum on the NAV of the Fund, subjected to a minimum fee of RM12,000 per annum, calculated on a daily basis for the financial period.

There will be no further liability to the Trustee in respect of the trustee fee other than the amounts recognised above.

11 TOTAL EXPENSE RATIO ("TER")

	<u>2024</u> %	<u>2023</u> %
TER	0.12	0.12

TER is derived from the following calculation:

$$TER = (A + B + C + D + E + F) \times 100$$
G

- A = Management fee
- B = Trustee's fee
- C = Shariah Adviser's fee
- D = Audit fee
- E = Tax agent's fee
- F = Other expenses
- G = Average net asset value of Fund calculated on daily basis

The average net asset value of the Fund for the financial period calculated on daily basis is RM212,609,129 (2023: RM167,257,040).

12 PORTFOLIO TURNOVER RATIO ("PTR")

	<u>2024</u>	<u>2023</u>
PTR (times)	2.41	2.42

PTR is derived from the following calculation:

(Total acquisition for the financial period + total disposal for the financial period) $\div 2$

Average NAV of the Fund for the financial period calculated on daily basis

Where: total acquisition for the financial period = RM510,663,994 (2023: RM408,574,519)

total disposal for the financial period = RM514,538,994 (2023: RM401,676,519)
